4 drill sheets · 240 problems · answer keys

One sheet from each of the four full packs

How to use this sampler

There is one sheet of 60 mixed facts (0–12) for each operation: addition, subtraction, multiplication and division. Set a timer (start with 5 minutes, then try 3, then 2), work as fast as you can without rushing, and stop when the timer ends. Check the answers with the key on page 7 and write the score in the box.

Tips: use a sheet as a quick check of which operation needs practice. A student who finishes with no more than 2 mistakes knows those facts; one who doesn't is ready for practice one fact family at a time.

The full packs

Each sheet here comes from a full pack in my Teachers Pay Teachers store. Every pack has 100 timed drill sheets of 60 facts that build up one fact family at a time with a review after each, then mixed facts, plus a progress chart and answer keys:

- **Addition Timed Tests: 100 Mad Minute Drills, Facts 0–12, Answer Keys**
- **Subtraction Timed Tests: 100 Mad Minute Drills, Facts 0–12, Answer Keys**
- **Multiplication Timed Tests: 100 Mad Minute Drills, Facts 0–12, Answer Keys**
- **Division Timed Tests: 100 Mad Minute Drills, Facts to 12, Answer Keys**

All four come together in the **Math Facts Timed Tests Bundle: Addition, Subtraction, Multiplication, Division**, and multiplication and division come as a pair in the **Multiplication & Division Timed Tests Bundle: 200 Mad Minute Drills, Facts 0–12**.
